(b) the year in which such an indication was given; and

(c) whether Government have changed their stance?

THE MINISTER OF STATE IN THE MINISTRY OF PETROLEUM AND NATURAL GAS (SHRI T.R. BAALU): (a) to (c) Based on the estimated demand of 7179 TMT and the estimated production of 12234 TMT of Naphtha NGL for the year 2001-02, the surplus of Naphtha/ NGL in 2001-02 has been estimated as 5055 TMT. The estimated demand does not take into consideration the requirements of the proposed naphtha-based power plants and fertilizer plants and expansion of the existing plants, since there is no certainty of materialisation of such proposals. Depending on the materialisation of demand from plants to which allocations of naphtha have already been made and possible slippages in the commissioning of various refinery expansion/new refinery projects, naphtha could also become deficit by the year 2001-02.

Children Covered under the Bharat Jan Gyan Vigyan Jatha

3799. SHRI SURINDER KUMAR SINGLA:
DR. SHRIKANT RAM-CHANDRA JICHKAR:

Will the Minister of SCIENCE & TECHNOLOGY be pleased to state:

(a) the number of children covered under the Bharat Jana Gyan Vigyan Jatha during the last three years;

(b) the details of activities under this programme; and

(c) what steps would be taken to increase the scope of this programme?

THE MINISTER OF STATE OF THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION AND MINISTER OF STATE OF THE MINISTRY OF SCIENCE & TECHNOLOGY (SHRI YOGINDER K. ALAGH): (a) to (c) Bharat Jan Gyan Vigyan Jatha 1992 (BJGVJ-1992), organised during the period August 1992—May 1994, was a countrywide S&T communication event emphasizing scientific awareness and inculcation of scientific temper among the people. The main themes towards awareness included health, water, environment, literacy, scientific thinking and appropriate technology. The programme covered over 350 districts and 50,000 locations, and reached about one fourth of the country's population. According to an estimate, the number of children covered in the age group 10 to 17 years was about 4.0 crores. Specially designed software that included books, slide sets, poster sets, kits and audio/video programmes was brought out. To build upon the gains of the programme, the scope was increased by taking several initiatives, for example, ECLIPSE 1995 — a nationwide campaign on S&T communication with activities

built around the total solar eclipse of October 24, 1995; and a campaign to educate and encourage people on voluntary blood donation.
